

PROTECT YOUR **PRIVACY.**

Unencrypted emails can be read or manipulated by others. SecurePIM protects all your emails and data from third-party access, including sensitive corporate data, your personal financial information and your personal life. Simple, fast and reliable.

Easier than ever before

- + Fast, automatic installation in just 60 seconds
- + No prior technological knowledge required
- + Use identical certificates with the same email address on all devices: smartphones, tablets, laptops and desktops
- + Intuitive user interface, similar to your native apps

Do more with your smartphone and tablet

- + Exchange sensitive personal and corporate data worry-free
- + Communicate securely with your bank, doctor, employer and others
- + Secure financial transactions via encrypted emails
- + Use the same mobile device for both work and play

”

SecurePIM was provided to me by my bank. Now, I simply receive my bank statements in an encrypted email. The fact I can also resolve my financial queries via email is particularly convenient. ☺☺
